

# Harsh Goyal

Delhi, NCR | [harshgoyal0219@gmail.com](mailto:harshgoyal0219@gmail.com) | +91-9319136408 | [Harsh.tech](https://www.linkedin.com/in/harsh-goyal)  
<https://www.linkedin.com/in/harsh-goyal> | <https://github.com/HarshGoyal13>

## Education

Bachelor of Computer Applications (BCA), Indra Gandhi National Open University	july '24 – Present
Bachelor of Arts(BA), Indra Gandhi National Open University	july '21 – july '24

## Experience

NullClass   <a href="#">Link</a>	July '23 - Sept '23
<ul style="list-style-type: none"><li>Created a Stack Overflow clone with fully functional API. Made coding a breeze!.</li><li>Improved security measures ensuring user data privacy. Kept our users' data safe and sound!</li><li>Enhanced UX with intuitive interface and seamless navigation. Making our users' experience delightful!</li></ul>	

## Skills

- Technical Skills:** Data Structures and Algorithms, MERN Stack, React.js, Next.js, HTML, CSS (Bootstrap, Tailwind), SEO Optimization, API Development (MongoDB, Express.js, Node.js), MySQL, Git, Github, OOPS
- Soft Skills:** Team Collaboration, Communication, Addressed, Coordinated

## Projects

StudyNotion | [Link](#)

- Engineered StudyNotion, an advanced edtech solution using the MERN stack (MongoDB, Express.js, React, Node.js).
- Implemented a Adaptive learning environment with features such as adaptive course materials, interactive student dashboards, and robust backend services for efficient data management.
- Emphasized scalable architecture, responsive design, and real-time user engagement to enhance educational delivery and streamline administrative processes.

### ZenCart | [Link](#)

- Planned and rolled out a **scalable e-commerce platform** incorporating comprehensive backend solutions and engaging frontend features for ZenCart.
- Serviced **key features** such as product management, user authentication, and payment gateway integration.
- Designed a **responsive interface** to optimize user experience and ensure operational efficiency.

### JobMingle | [Link](#)

- Crafted **JobMingle**, a sophisticated job portal website with a well-architected backend and an appealing front-end design.
- Built a **scalable platform** featuring real-time job listings, efficient candidate tracking, and advanced search capabilities.
- Focused on **performance optimization** and **secure data handling** to deliver a reliable and high-performance job portal.

## Certificates

Master Full stack Web development (MERN)   <a href="#">Certificate</a>	April '23 – September '23
<ul style="list-style-type: none"><li>Developed and deployed scalable web applications using modern JavaScript frameworks, including React, Node.js, and Express.js.</li><li>Applied industry best practices in full stack development to create robust and efficient web applications, ensuring optimal performance and scalability.</li></ul>	

Certificate of Participation in Backend Web Development Bootcamp   <a href="#">Certificate</a>	April 15' 23 – April 22' 23
<ul style="list-style-type: none"><li>Acquired hands-on experience in backend web development, focusing on server-side programming, RESTful APIs, and application deployment.</li><li>Successfully completed a 7-day bootcamp on Backend Web Development, covering JavaScript, Node.js, and Express, organized by DevTown in collaboration with MLSA KIIT and GDSC KIIT chapters.</li></ul>	

Data Structure And Algorithms   <a href="#">Certificate</a>	October '22 – March '23
<ul style="list-style-type: none"><li>Gained proficiency in essential data structures and algorithms, enabling effective Diagnosed and code optimization.</li><li>Applied advanced algorithmic strategies and data management techniques to design and implement optimized solutions for complex computational challenges.</li></ul>
