Education

Bachelor In Arts (BA), Indira Gandhi National Open University

2021 – 2025

Skills

- **Blockchain Development:** Solidity, Ethereum, Ethereum Virtual Machine, Yul, Solidity Optimization, Foundry, Token Development (ERC-20, ERC-721, ERC-1155), Smart Contract Auditing.
- **Programming Languages:** Rust, JavaScript, C++.
- **Full-Stack Development:** MERN Stack (MongoDB, Express.js, React.js, Node.js), HTML, CSS (Bootstrap, Tailwind), API Development, SEO Optimization.
- **Core Skills:** Data Structures and Algorithms, OOP, Git, GitHub.

Experience

Freelance Web Developer

Remote

- Designed, developed, and deployed **responsive websites** for multiple clients using the **MERN stack**, HTML, CSS, and modern JavaScript frameworks.
- Worked closely with clients to gather requirements, implement custom features, and deliver scalable, user-friendly web solutions.
- Integrated **RESTful APIs**, authentication systems, and database management for dynamic web applications.

Tutify

MERN Stack Instructor

- Teaching and mentoring students in **Full-Stack Web Development** using the **MERN stack (MongoDB, Express.js, React.js, Node.js)**.
- Conducting hands-on coding sessions, live demonstrations, and project-based learning modules.
- Currently contributing to the **development of Tutify's official website**, implementing features and improving UI using modern MERN practices.

Projects

ZenCart E-Commerce | [Link](#) | [GitHub](#)

- Developed a **full-stack E-commerce platform** using the **MERN stack** with product listings, cart, and order management.
- Implemented **secure user authentication**, dynamic cart functionality, and smooth checkout workflow.
- Integrated **RESTful APIs** with MongoDB and built a responsive, user-friendly UI using **React and Tailwind CSS**.

StudyNotion | [Link](#) | [GitHub](#)

- Built a **MERN-based EdTech platform** enabling students to enroll in courses and instructors to create and manage content.
- Implemented **role-based authentication (JWT)** with secure dashboards for students and instructors.
- Designed scalable **REST APIs** with MongoDB and a responsive UI using **React and Tailwind CSS**.

Certificates

Master Full-Stack Web development (MERN) | [Certificate](#)

April '23 – September '23

- Developed and deployed scalable web applications using modern JavaScript frameworks, including React, Node.js, and Express.js.
- Applied industry best practices in full stack development to create robust and efficient web applications, ensuring optimal performance and scalability.

Data Structures and Algorithms | [Certificate](#)

October '22 – March '23

- Gained proficiency in essential data structures and algorithms, enabling effective diagnosis and optimization of code.
- Applied advanced algorithmic strategies and data management techniques to design and implement optimized solutions for complex computational challenges.
